General Motors Company donated a 2011 CTS fully loaded Cadillac to MassBay Community College for the school's GM Automotive Service Educational Program. After the car was damaged during transit, R.C. Olsen Cadillac of Woburn donated the repairs. 'The automotive industry is so technologically driven now that we need people trained right,' said Richard Olsen, President, R.C. Olsen Cadillac, "Anything we can do to help the students help us to repair our cars and keep our customers happy and on the road, we stand behind 100 percent.' Left to right are Howard W. Ferris, Dean-Transportation and Energy Division, MassBay Community College; Paul Bresnick, Instructor, GM Automotive Service Educational Program (ASEP), MassBay Community College; Tim Caley, instructor, GM, ASEP, MassBay Community College; Richard Olsen, president, R.C. Olsen Cadillac; Ray Cascio, service manager, R.C. Olsen Cadillac; Carlos Aponte, customer care and aftersales, regional service training manager, General Motors Company, Northeast Region.
