This 60-hour Medical Interpreting course provides the training for the new or experienced interpreter to work as an interpreter in the medical field according to the standards of the profession. The course meets the certification criteria as established by the National Board of Certification and prepares interpreters to take the National Board of Certification for Medical Interpreters Exam. This course is offered in collaboration with TransfluenciEDU and is open to all languages but students must be fully bilingual with strong language skills. Students must be able to communicate fully in both English and the language of translation. Students must select one target language to be trained in at the time of enrollment. A selective interview is required for acceptance two weeks prior to registration.
