

Welcome to MassBay Community College ... where your dreams are our mission

For 50 years, our faculty and staff have been changing lives and building futures. MassBay Community College has opened doors for our students and alumni, and we're confident that important steps toward your career success begins right here – on our Wellesley Hills or Framingham campuses, at our automotive technology center in Ashland, or via our robust selection of online courses.

At MassBay, we offer more than 60 associate degree or career-enhancing certificate programs in business and entrepreneurial studies, education and human services, engineering and bio- technologies, health sciences, information technologies, liberal arts, and math and sciences. We also make advancing your educational opportunities easy, working closely with regional public and private four-year colleges and universities to provide a seamless transfer of credits.

Throughout our history the College has grown and adapted to employer demand by offering new academic programs, a tradition that continues today. MassBay has become a vital cog in the MetroWest economic engine, partnering with area businesses and stakeholders to enhance economic and workforce development for the communities we serve.

To accommodate our substantial enrollment growth and to meet the evolving needs of our students, we also continue to transform and add to our buildings, classrooms, laboratories, parking lots, walkways and green space. Located just 10 miles west of Boston, MassBay features state-of-the-art facilities and nationally recognized biotechnology and automotive technology programs. Take a look around our beautiful, modern campuses and you'll find MassBay an exciting place to continue on your road to success through affordable, accessible, transferrable and high quality education.

We're excited to help you get started on your path to career success, and we hope you'll join our 18,000 graduates who live and work in Massachusetts. We look forward to seeing you on campus.

Sincerely,

John O'Donnell, PhD
President
MassBay Community College
