Massachusetts General Law: 220.600 Immunization Requirements for College Students

(A) In order to be registered at an institution of higher learning, every full-time undergraduate student must present a physician's certificate that such student has received the following immunizations:
(1) two doses of live measles, mumps and rubella vaccine given at least four weeks apart beginning at or after 12 months of age is required;
(2) a single dose of Tdap administered within the last 10 years;
(3) three doses of hepatitis B vaccine are required for all students; and
(4) two doses of varicella vaccine given at least four weeks apart beginning at or after 12 months of age is required.

(B) The requirements of 105 CMR 220.600 shall not apply where:
(1) the student provides written documentation that he or she meets the standards for medical or religious exemption set forth in M.G.L. c. 76, § 15C;
(2) the student provides appropriate documentation, including a copy of a school immunization record, indicating receipt of the required immunizations; or
(3) in the case of measles, mumps and rubella, the student presents laboratory evidence of immunity
(4) in the case of hepatitis B, the student presents laboratory evidence of immunity; or
(5) in the case of varicella, the student presents laboratory evidence of immunity; a statement signed by a physician, nurse practitioner, physician assistant or designee that the student has a reliable history of chickenpox disease; or a self-reported history of disease verified by a physician, nurse practitioner, or physician assistant.

(C) Whenever possible, such immunizations are to be obtained prior to enrollment or registration. However, students may be enrolled or registered provided that the required immunizations are obtained within 30 days of registration.
