Gene Therapy at Sanofi Genzyme
A STEM Forum

*This program is funded through STEM Starter Academy & Sanofi Genzyme grants*

Thursday, March 31st
12:00 pm – 1:00 pm
Wellesley Hills, Library Atrium

Register: https://stemforumgenetherapy.eventbrite.com
~ Lunch will be served ~

Presented by
Dr. Abraham Scaria, Sanofi Genzyme R&D Center
Gene therapy is the therapeutic delivery of nucleic acid molecules into a patient's cells as a drug to treat disease. This program will cover gene therapy approaches to targeting debilitating rare diseases where there are very limited treatment options. Gene based therapies for a variety of diseases of the central nervous system and the retina are currently being developed at Sanofi Genzyme.
