

## **DIVISION OF HEALTH SCIENCES**

*HEALTH SCREENINGS AND OTHER REQUIREMENTS FOR STUDENTS  
BEFORE THE START OF THEIR PROGRAM.*

*DOCUMENTS MUST HAVE THE STUDENT'S FULL NAME  
AND DATE OF BIRTH.*

*ALL DOCUMENTS WILL BE UPLOADED TO THE  
STUDENT'S VIEWPOINT ACCOUNT.*

✓ **Communicable Disease Screenings**

- **Measles**
  - 2 Measles Vaccines or MMR given after 12 months of age OR positive antibody titer.
- **Mumps**
  - 2 Mumps vaccines or MMR given after 12 months of age OR positive antibody titer.
- **Rubella**
  - 2 Rubella vaccines or MMR given after 12 months of age OR positive antibody titer.
- **Varicella**
  - 2 Varicella vaccines OR positive antibody titer.

*Following a negative antibody titer for MMR or Varicella, 2 booster doses are required.*

- **Hepatitis B**
  - EMT students: HBsAB titer OR Hepatitis B vaccine series.
  - ALL OTHER HEALTH SCIENCES STUDENTS: Hepatitis B HBsAB titer.

*Following a negative Antibody Titer, repeat Hepatitis B Vaccine Series is required.  
Negative Titers are only accepted after complete series and followed by repeat series.*

- **Tdap**
  - One dose required after the age of 7. If it has been more than 10 years, Tdap or Td is required.
- **Tuberculosis screening – EMT Students**
  - EMT Students:
    - One-Step TB Skin Test within the past 12 months
    - TB Blood test (IGRA), either a QuantiFERON or T-Spot can be done in place of skin-testing.
    - If history of positive TB test – negative Chest X-Ray within the past 5 years.

*Continues next page.*

- **Tuberculosis Screening – All Health Sciences Students (except EMT)**
  - Two-Step TB Skin Test (2 TB tests between 1 and 3 weeks apart) within the past 12 months
  - TB Blood test (IGRA), either a QuantiFERON or T-Spot, can be done in place of skin-testing.
  - If there is a history of positive TB test – negative Chest X-Ray within the past 5 years.
- **Flu Vaccine for current season (Available end of August. October 1<sup>st</sup> – March 1<sup>st</sup>)**
- **COVID-19 Vaccine and Bivalent Booster dose**
- **Meningococcal Vaccine**
  - Students 21 and younger: 1 Dose MenACWY administered after age 16 or signed waiver
  - Students 22 and older: sign waiver (available on Viewpoint)
- **Report of Physical Examination with clearance to participate by a healthcare provider within the past 12 months.**
- **Signature of Release on Physical Examination form.**
- ✓ **Basic Life Support (BLS) Provider CPR from the American Heart Association or the American Red Cross.**
- ✓ *Included in EMT program. Not required for CPT students.*
- ✓ **Signed Technical Performance Standards Form**
- ✓ **Signed Division of Health Sciences Handbook Acknowledgement Form**
- ✓ **CORI and SORI Clearance**
  - *No criminal convictions or “open cases”*
  - *Students complete CORI and SORI forms during the Orientation process.*

**Helpful tips:**

- If you are thinking about applying for a Health Sciences Associate Degree program or enrolling in one of our one-semester certificate programs soon, start gathering your immunization records right away! Some vaccines, like Hepatitis B, can take several months to complete.
- Sometimes it is not possible to locate records of childhood vaccinations. If you are in this situation, you can get antibody titers (laboratory blood tests to check for immunity).
- Make sure your health and immunization documents have your full name and date of birth on them. Most screenshots from online medical record portals do not have this information.
- If you submitted immunization records as a General Studies student to the Office of Student Development, you still need to submit records to, and be cleared for clinical placement by, the Division of Health Sciences.
