

# BECOME A MEDICAL INTERPRETER!

*Learn how to expand your skills.*

There is a critical need for trained medical interpreters! This 60-hour program provides working knowledge of medical interpreting, including standards of practice, ethics, HIPAA regulations, cultural competency, and medical terminology/vocabulary. Open to all languages, students must be bilingual and must be fluent in English and one other language. This program is designed for those preparing for entry-level careers as medical interpreters as well as for working interpreters preparing for the National Board Certificate exam. This program meets the National Board for Medical Interpreter Certification training requirement and prepares students for the certification exam.

For information on certification prerequisites visit:

[www.certifiedmedicalinterpreters.org/prerequisites](http://www.certifiedmedicalinterpreters.org/prerequisites)

Upon successful completion of the program, students will receive a certificate of completion from the college.

Please register early, as a brief language assessment is required and conducted by phone. This program is offered in collaboration with TransFluenci EDU, a leader in the medical interpreter training field and is taught by an experienced medical interpreter. The textbook is available at the Framingham Campus bookstore. Not eligible for tuition waivers.

**Framingham Campus • 19 Flagg Drive, Framingham MA**

*Medical Interpreters  
are in high demand.  
A Medical Interpreter  
earns, on average,
